<TEXT>The American People have put up with the ridiculous restrictions you've put on the entertainment world, but at least these mistakes haven't lost us any money. This proposal will not only make the costs of services go up, but may put many folks at risk of not having any form of outside communication.

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

For once, listen to the ACLU, and the NAACP, and Keep the USF Fair!

Sincerely,

Chuck Lukacs
